

## LEARN TO HELP

### Education in Care -

#### Pflegeschulzentrum Goslar

Our school Pflegeschulzentrum Goslar has 180 places for education. Six classes are taking the education parallel, where in April and September of each year a class is starting. Every class is guided by teachers over three years. The education starts with two months of theory. It is aimed that the students are well prepared for their first placement. Pflegeschulzentrum Goslar is placed in the buildings of the Berufsförderungswerk Goslar (BFW)

#### Verein zur Förderung von Gesundheitsberufen

##### **Gründer:**

ASKLEPIOS HARZKLINIKEN GMBH  
PRIVAT-NERVEN-KLINIK DR. MED. KURT FONTHEIM

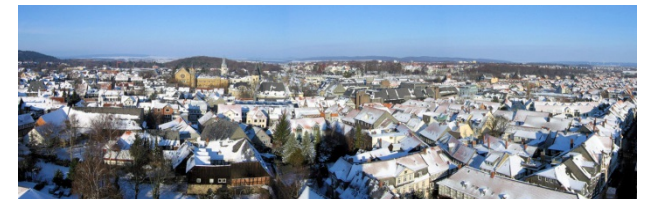

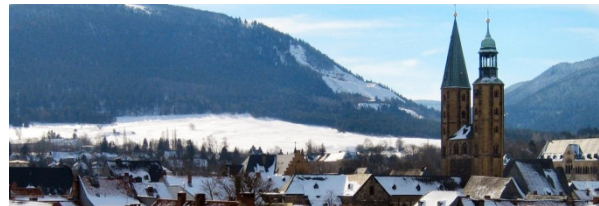

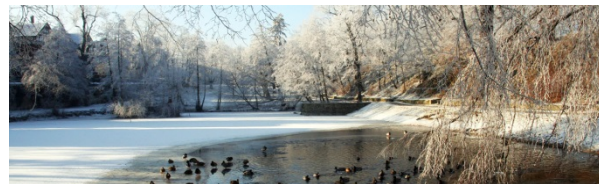

#### **Goslar**

##### **A live- and loveable City**

The cozy historical center of Goslar is world cultural heritage of UNESCO. In its lovely student houses are a lot of bars and cafes. The town center invites for a walkabout. But Goslar is not stuck in the Middle Ages - a lot of clubs, initiatives and free time offers make the old town to a lively center.

Hiking or biking in the national park Harz, swimming in one of the lakes or one of the endless choices for winter sports - the region will fulfill you the one or other way.

##### **A good place to live and learn**

##### **A good start in a multifaceted job profile.**

In future nurses will even more contribute in health of the society than today. The need of qualified staff is rising subsequently to the demographic development. The new nursing law sets the basis that the profession care develops to healthcare. Therefore the health encouragement and the health conversation become more important. The work place hospital is expanding to a number of institutions of the health care, especially the one of the outpatient care.

**Our education will prepare you for that.**

## THEORY AND PLACEMENT ARE GOING TOGETHER

The education takes 3 years and includes theory and practical placement. This will happen in units in school and in the hospital. Therefore we exercise together to make our own experiences.

For distribution to I-IV	200
<b>Total hours</b>	2100

## GOAL: THEORY + PRACTICAL EDUCATION = EXPERTISE

Apart from the professional knowledge, the education is focusing on four areas of competence, which are written down in the law of nursing.

### Professional competence

To gain a professional self-understanding as nurse, to develop the ability to notice a change of the patient's well-being, to advice and instruct professionally and to act preventive.

### Social-communicative competence

Ability to change perspective, empathy, solve conflicts positive, endure critics.

### Competence of methods

To set goals for the act of nursing, to do the nursing properly and to evaluate.  
In collaboration with other occupation groups: to get information, to work together and make decisions (creativity and the ability for innovation have an important role).

### Personal competence

Get to know yourself.  
Learn to cope with your own feelings.  
Find the own opinion for existential question of life and the ability for a balance between closeness and distance.  
Be able to give an input for the creation of a job-related and social process.  
Have a political feeling and involve with it.  
To show motivation, candidness, authenticity, flexibility and toughness.

## A MISCELLANEOUS OFFER - THE PLACEMENTS

PRIVAT-NERVEN-KLINIK DR. MED. KURT FONTHEIM

and more hospitals and outpatient care institutes in our region

### CONSULTATION FOR STUDYING

#### WE WANT THAT YOU ARE SUCCESSFUL!

The consultation is an individual counselling interview for your studying behavior. It is an offer for our students to study successful. With the counselor you analyze how you studied and see how efficient it was. The results are options for the student how to study more successful. The counselling includes:

- To optimize your method of studying,
- To cope with the fear of examinations,
- strategies for the preparation of the exams,
- how to integrate the studying in your daily routine.

## FAQ'S

### 1. When does the education start?

The education starts two times a year, on 01.04. and 01.09.

### 2. Is there a probation period?

Yes, the first six months are probation period. In this time the contract can be resigned by both sides without any reasons.

### 3. What degree do i have after the education?

You end your education with an examination. You own the right to call yourself a nurse.

### 4. How long is the education?

It takes three years.

### 5. How much hours do I have to work per week?

40 hours per week.

### 6. How much holiday do I have?

You have 30 days per year.

### 7. How much money will I get while I'm in the education?

First year: 918,-€ per month  
Second year 981,-€ per month  
Third year 1028,-€ per month

### 8. Do i get the work clothes for free?

Your employer will off you enough clothes for work. Furthermore he will take the costs for the cleaning. Work clothes for outpatient care as well as shoes have to be paid by your own.

### 9. Is there a possibility to live in a hostel for students?

The school is placed on the area of the BFW. The BFW offers a limited number of ready-furnished rooms. The costs are 150€ per month including telephone and internet. As you hire a room you are allowed to use the free time offers for free. It is possible to use the cafeteria of the BFW for less.

### 10. Do I have to buy the books alone?

You'll get access to ebook on our e-learning platform. But other material has to be bought.

### 11. How is the structure of the theory?

Theory will be in units. It starts at 8 a.m. and ends at 3.30 p.m. Sometimes it takes longer (Lessons by a doctor)

### 12. Apart from the exam in the end are there any other tests?

To see the success of the studying we do several tests in theory and placement.  
After about 1 ½ years there is an intermediate examination.

### 13. Do I get money back for the costs of driving to the hospital?

No, you don't.

### 14. Do I get a student card?

Yes.

### 15. Can I get help from social care?

Yes. Please get informed at the agency for work.
